

NC & **Nicholson and Cates Limited** **BUILDING PRODUCTS**

March 14, 2017

Nicholson and Cates limited is pleased to announce a new distribution partnership with Chemcrest Inc. Chemcrest Inc. manufactures a wide variety of products including PVC Column Wraps, Shutters, Gables, Louvres and Brackets.

Chemcrest Column Wraps are decorative and designed to enhance the appearance of existing structural posts. Flat-packed for easy transport and on-site assembly; each box contains 4 interlocking column panels, squaring blocks, cap and base. Made from PVC, Chemcrest Column Wraps provide the strength, beauty and rigidity of wood while being UV, rot and insect resistant. Chemcrest Inc.'s columns are more durable than wood and do not require the continuous maintenance or rot repair that wood products demand.

Chemcrest Inc.'s PVC Column Wraps come in a variety of sizes and styles: plain, fluted, recessed or raised panel in straight or tapered column shafts. Add a crown, capital, base or neck mould to further enhance the look. Custom column wraps are also available; just let us know the size and design you need.

In addition to column wraps, Chemcrest has an in-depth product offering with over 3,000 styles of decorative interior and exterior millwork. For custom needs Chemcrest can design anything from the modest to the magnificent, using state of the art technology and highly skilled craftspeople.

Nicholson and Cates Limited is known throughout the building supply industry for our ability to provide premium quality, innovative products and exceptional service. The partnership of Nicholson and Cates and Chemcrest Inc. makes a full line of exterior and interior Architectural Accent products available to the Ontario market.
