

# FrameFAST™

## Structural Framing System

### Changing the Way Framers Frame

The FrameFAST Structural Framing System utilizes one tool, one screw, and 3 interchangeable heads to provide a code-compliant replacement to standard hurricane ties, clips, and straps.

- Installs 5x faster than traditional connectors<sup>1</sup>
- The 6" FrameFAST screw replaces commonly used framing clips, straps, and ties
- 3 Interchangeable heads accommodate a variety of structural connections
- Patented delivery system ensures correct installation angle and offset every time
- Eliminates ladders, nail guns and hoses
- Code-compliant across USA and Canada
- Corded or Cordless Power with 3 power options it's now easier than ever to choose the FrameFAST tool that's right for your crew!

#### Notes:

<sup>1</sup> Based on side-by-side comparison using traditional hurricane tie for securing roof trusses to wall plate in a wood framed structure versus FrameFAST truss to top plate connection. Time study information available at [fastenmaster.com](http://fastenmaster.com)

Truss to Top Plate Connection

Stud to Top and Bottom Plate Connection
